

THE WORLD,
AN INDEPENDENT
DAILY AND WEEKLY NEWSPAPER,
FOR
National Circulation & Family Reading.

The World has now been in existence for a little more than a year. It has attained, in that short period, to the highest rank in American Journalism—to a perfectly secure financial basis, and to a circulation, patronage and influence which has only been equaled by other journals after the labors of many years.

For the coming year no labor or expense will be spared to make The World what it aims to be—the

BEST NEWSPAPER IN AMERICA.
In Politics, The World is independent, but never neutral. It will never lend itself to party service, but will help the good and expose the bad of all parties. A pure morality and a steadfast adherence to

CHRISTIAN PRINCIPLE AND CHRISTIAN TRUTHS,
will guard its columns and guide its judgment of men and of events. It is the organ of no man, and no set of men. It is national, always on the side of

THE UNION, THE CONSTITUTION & THE LAWS.
As the Union, as it is, is the best, it will give to the Administration hearty and vigorous support, because in the war for the Union twenty millions of people have sacrificed to it. It will support the Government in its efforts to maintain the Union, to preserve the Constitution, to protect the rights of the people, and to establish the principles of Liberty, Equality, and Justice.

The World will oppose all compromises which would barter away the principles for which this war is waged; it will oppose peace itself till the success of the war assures the permanent peace of the Union, and will see the prosecution of the war with economy, vigor, and efficiency.

Our correspondents are attached to the various divisions of the army, will accompany them wherever they go, and by a free use of the telegraph and the mails present in the columns of The World

A COMPLETE HISTORY OF THE WAR,
from day to day and from month to month.

In the Weekly and Semi-Weekly editions of The World, especially, large space will be given to

AGRICULTURE,
and to all the departments of
MANUFACTURING AND MECHANICAL INDUSTRY.

To our Foreign Correspondence of course less space will be given in the coming year, but the latest and most important news from London, Paris, Turin, Rome, Vienna, Berlin, St. Petersburg, Japan, Egypt, and South America, our correspondents will promptly and briefly send us.

ALL THE NEWS
will be found in the columns of The World, every department of human activity.

POLITICAL, AGRICULTURAL,
as well as in LITERATURE, SCIENCE AND ART.

We shall continue the publication of our Ecclesiastical Record, and give to Religious and Educational Topics and News, and to all New Publications, Inventions, Discoveries, and Works of Art, the same careful and thorough sympathy and attention.

THE DAILY WORLD.
The Daily World is the most complete Commercial and News Paper published in America. United with the Courier and Enquirer, and preserving all the commercial news and other distinctive features of that Journal, it has become the principal advertising medium of the New York Auctioneers, Shipping Merchants, and business men generally. Its Commercial and Market Reports, together with its Reports of all Imports and Exports, and of all Foreign and Domestic Ship News, are full, reliable, and give what no business man can do without. Besides these peculiar features, it is distinguished in the fullest of its political and miscellaneous news, its correspondence, &c. It is printed on an Imperial quarto sheet, larger than any other two-cent daily.

No Sunday Edition is published, and a vigilant watch will be kept over its columns, excluding every thing unfit for family reading.

Terms per annum, Six Dollars; Four copies to one address Twenty Dollars. To Clergymen, Five Dollars per annum. Published Tuesdays and Fridays.

THE SEMI-WEEKLY WORLD.
The Semi-Weekly World is a huge quarto sheet, same size as the daily, containing all its news, correspondence, miscellany and editorials, its commercial and market news, and always a good original story, or some brilliant production from the best English novelists and periodical writers. Its cattle market and provision reports make it highly valuable to every farmer.

Three Dollars per annum; Two Copies to one address, Five Dollars; five copies to one address, Eleven Dollars. To Clergymen, Two Dollars per year. Single copies, Three Cents. Published Tuesdays and Fridays.

THE WEEKLY WORLD.
The Weekly World contains all the editorials and the most important of all the news matter contained in the daily edition, together with a good original story, or some brilliant production from the best English novelists and periodical writers. In no other weekly paper published in this country are there found such full commercial and market reports, and general news intelligence, combined with so much editorial matter and variety of miscellaneous reading, as in the Weekly World.

Price Two Dollars a year; four copies to one address, Five Dollars; twenty copies, Twenty Dollars. Clergymen can receive the Weekly, single copy, at One Dollar a year. Single copies, Five Cents. Published on Thursdays.

Our friends in the country will bear in mind that the season for subscribing for city papers is about commencing. A word of commendation of this paper to their neighbors is all that is needed to insure a large increase in its circulation and influence.

Postmasters are earnestly requested to aid in the circulation of this paper—especially of the weekly edition. There is probably no way in which they can render a more efficient service to their government than in diffusing authentic information among the people by a liberal patronage to accredited newspapers. They should give us by furnishing the names of persons to whom they think it would be desirable to send specimen numbers.

Remittances for The World may be made by drafts or bank bills of specie-paying banks, and where the attention of the Postmaster is called to the remittance at the time of mailing the letter, it may be made at our risk.

Specimen numbers sent to any address upon application. Address THE WORLD, 85 Park Row, New York.

"I consider the 'Record' a very valuable publication."—*Edward Everett.*
"Every one who wishes a complete record of the stirring events now transpiring, should procure this weekly serial. In a small compass it gives the contents of a dozen daily newspapers. It is indispensable for reference, and forms one of the most remarkable specimens of current history ever published. We advise those who would preserve and ponder the authentic chronicle of the 'Second War of American Independence,' to possess themselves of this valuable and interesting serial."—*Boston Transcript.*
"We cannot speak too highly of the industry and sound judgment the work displays."—*N. Y. Daily Times.*

THE NEW ENGLAND FARMER
FOR 1862.

In announcing the commencement of a New Volume of the FARMER we do not propose to make any important change in the appearance or character of our Journal. The wide circulation which has been obtained assures us that the FARMER already meets the wants of the agricultural community and encourages us to renewed exertions to make it fully deserving of the patronage awarded it. The New ENGLAND FARMER is published weekly, in 10 No. form. One entire page is occupied exclusively with articles relating to agriculture, nearly all original, and written for our columns by men of practical experience on their own farms. Our leading object is to give the results of practical operations and the knowledge drawn from them and not mere speculations or plausible theories.

The remainder of the paper contains:
A carefully prepared digest of the News of the Week, as full and accurate as constant care can make it. Miscellaneous Reading for the family circle, always instructive and of good moral tone, as well as entertaining.

Market Reports and Prices Current, including the best and only reliable report of the Cambridge and Brighton Cattle Markets, prepared exclusively for our columns at great expense.

Editorials, Book-Reviews, &c.
TERMS OF THE WEEKLY NEW ENGLAND FARMER.

\$40. PARKER 40.
SEWING MACHINES.
PRICE, FORTY DOLLARS.

THIS is a new style, first-class, double-thread Family Machine made and licensed under the patents of Howe, Grover & Baker, and Wheeler & Wilson, and its construction is the best combination of the various patents owned and used by these parties and the patents of the Parker Sewing Machine Company, they were awarded a SILVER MEDAL at the last Fair of the Mechanics' Charitable Association, and are the best finished and most substantially made Family Machines now in the market.

SALESROOM, 116 WASHINGTON STREET,
GEO. E. LEONARD, General Agent.

IMPORTANT TESTIMONY.
"FOUR PARKER'S SEWING MACHINES.—This Machine is so constituted that it embraces the combinations of the various patents owned and used by Howe Jr., Wheeler & Wilson, and Grover & Baker for which these parties pay tribute. These, together with Parker's improvements, make it a beautiful machine. They are sold from \$40 to \$120 each. They are very perfect in their mechanism, being adjusted before leaving the manufactory, in such a manner that they cannot get deranged. The feed, which is a very essential point in a good machine, is simple, positive and complete. The apparatus for gauging the length of stitch is very simple and effect, i.e. the tension, as well as all other parts, is well arranged. There is another feature which strikes your attention favorably, viz. there is no wheel below the table between the standard, and therefore, no danger from oil or dirt. This machine makes the double lock stitch, but is so arranged that it lays the edge upon the back quite flat and smooth, doing away the 'puckering' which the objection sometimes made on that account."
